

# **Warning: CCTV is coming to Forest Fields!**

We don't have long to act if we are to put the brakes on this unwanted intrusion into our local community!

The council's laughable "consultation" splits the process into seven separate consultations (one per camera mast, rather than one for the whole scheme), and gives us only ten days to respond!

## **The deadline for objections is Monday 2nd February!**

Time to organise a campaign against this is short, so for now we need to buy ourselves longer.

Write and object about this inadequate "consultation" (you could even hand-deliver on Monday) to: Area 4 Neighbourhood Management Team, The Mary Potter Centre, Gregory Boulevard, Hyson Green, Nottingham, NG7 5HY.

Alternatively you can email [myvoice.abrp@nottinghamcity.gov.uk](mailto:myvoice.abrp@nottinghamcity.gov.uk) or phone 0115 8838469.

There's also a "local concerns" meeting with the police and councillors, 6:30-8pm on Thursday 5th February at The Forest Fields Community Centre on Sturton Street. A number of us are planning to attend and voice our concern about unwanted CCTV schemes - see you there!
