PALESTINIAN BDS
CALL FROM WITHIN**

BOYCOTT!

15th October 2012

We are a group who are concerned about the opening of an Ecostream store in Brighton. As glad as we are that Soda water will flow in Brighton there is a larger issue. Seven years ago a unified declaration by all segments of Palestinian society and political groups called for an economic boycott of Israeli businesses in order to force Israel to respect Palestinian rights and obey UN resolutions. We think that these types of measures are necessary given our government's consistent policy of dispossessing Palestinians and driving them out of Palestine by the use of many discriminatory policies.

We are grateful to campaigners from Brighton who work to promote the boycott of Israeli businesses. We call on other people to join them and us in supporting the Palestinian call for Boycott.

Boycott! supporting the Palestinians call for boycott from within
